

*Are you looking to fully utilise your farm?
Do you want to diversify?
Are you looking for a long term investment which provides regular income?*

A Farm Business Investment That Works.....

Due to continued expansion Lohmann GB Limited is seeking **contract hatching egg producers** and **contract broiler breeder rearers** for their **broiler breeder business**.

Preferably in new-build houses, we are aiming to house flocks of between 24,000 and 36,000 birds.

We are looking for family based farms who are prepared to work within the production operation themselves. Experience has proved to us that the closer the relationship between the producer and the stock, the better the results.

Full support is given from our experienced team with regards to business plans, build, project management, training and continual support. We can prove financially that this investment works and introduce you to our many contractors who are reaping the rewards of their investment.
